

West Central Region and Statewide Dental Care Options for Individuals on MN Health Care Plans

Note to providers and families: It is recommended that you first call private dentists in your area and ask whether they are accepting new patients. Be sure to mention if you are insured by Minnesota Healthcare Programs and/or Medical Assistance. Also, do not hesitate to call the toll free number on the back of your insurance card and ask for assistance in locating a dentist for your pay source (see individual toll free numbers listed on the last page of this document.)

For UCare:	UCare's See-A-Dentist Appointment Hotline: 1-800-235-0564

Fee-for-service enrollees

If your child gets health care through Minnesota Health Care Programs (MHCP) but is not enrolled in a health plan, you can find dentists in the [MHCP Provider Directory](#).

To find a dentist near you, select "Dental" from the main menu.

On the next page, select the type of dentist you are looking for and enter your zip code or county.

A dentist that works mostly with children is a Pedodontist. A dentist that works with all ages (including children) is a General Practice Dentist.
